## RELEVANT EXPERIENCE

---

### SOFTWARE DEVELOPMENT BOOTCAMP | Just IT

November 2023 - February 2024

- Using skills such as HTML, JavaScript, and CSS, to create visually appealing and user-friendly interfaces after debugging and testing of different types of code.
- Experienced in Database Design, equipped with the ability to develop efficient and scalable data structures for robust applications. Also using SQL to access and manipulate databases.
- Adept in Python, leveraging its versatility for backend development and scripting tasks, contributing to the entire software development life cycle.
- Skilled in optimizing algorithms, documenting code, and integrating solutions into web development projects. Also gaining a solid grasp of version control (Git/GitHub) as well as a proficiency in System Development lifecycle & Methodologies, ensuring a comprehensive understanding of software development processes.

### 50 PROJECTS IN 50 DAYS | HTML, CSS JavaScript

July 2023 - August 2023

- Successfully undertook a comprehensive Udemy course centered around using CSS, HTML, and JavaScript to craft engaging and interactive web projects.
- Designed and constructed a diverse range of projects during the course, showcasing adeptness in leveraging CSS for styling, implementing structured HTML, and integrating dynamic behaviours using JavaScript.
- Translated theoretical knowledge into practical skills by creating responsive and visually appealing web interfaces, mastering the art of seamless user experiences through the harmonious blend of these foundational web technologies.

### NHS | Data Officer | Broomfield hospital

July 2022 - September 2022

- Received and organised goods and rapidly adapted to distribution of equipment when a staff member retired, I was quickly changed to the distributor of equipment for the whole hospital due to my proven competence in excel.
- Required to develop my technical analysis skills including the use of excel to manipulate data.

## EXTRACURRICULAR

---

### The University of Nottingham | Thai boxing Club

September 2022 – July 2023

- Heavy involvement in mixed martial arts, switching from yrs. of boxing to starting Thai boxing.
- Intense sparring and training 4 times a Week and using its discipline in other areas of my life.
- Teaching Children basic Thai boxing skills every Wednesday to show them the enjoyment of Thai Boxing.

### King Edwards VI Grammar School | Sports | Essex, UK

September 2013 - April 2020

- Served as House Captain and Captain of the school football team, demonstrating strong leadership qualities that contributed to winning the 6th Form First 11 Essex Football School's Cup, the first victory in a decade.
- Represented the school in rugby, basketball, and table tennis, all at the first-team level.
- Acted as an athletics student coach during Year 12, mentoring younger students in sprinting and jumping events, fostering their development along a similar athletic trajectory.

### Commission Photography

September 2016 - Present

- Engaged in commissioned photography for various events including weddings, birthdays, and baby showers, generating thousands of pounds in revenue. Reinvested earnings into equipment upgrades to enhance the quality of my work.
- Pursued photography for seven years since Year 10 in secondary school, achieving an A\* in Photography GCSE. Maintain a strong passion for the craft, evidenced by the management of a dedicated photography Instagram account.
- Leveraged photography skills during international travels to document events such as a baby shower in Paris and a birthday party in Spain, both for personal content creation and paid assignments.
